

MonoFlash

MonoFlash- LED strobe which is a great replacement to generic stroboscopes at just 840W, half the size and really low weight. It has the same control modes as generic strobes, the same look and feel as using a generic strobe. And no more expensive lamp changes- LEDs will last forever compared to xenon lamps.

Also, this fixture has RDM- DMX512 protocol enhancement for bi-directional communication. RDM allows you to set DMX address, change control modes and other things remotely.

Technical Specifications:

Colour:	White
CREE XP-L LEDs Light sources	84
Pixels per fixture	1
White colour temperature	>5700K
Control	DMX 512A, RDM
DMX channels	3-4
Cooling	Conventional
IP rating	IP20
Operating t°	-20° - +40°C
Peak power	840W
Dimensions	L 360 x H 80 x W 95
Weight	2150g
DMX connectors: In/Out	XLR5 M/F
Power connector: In	powerCON 20A
